

KANITPHONG SRICHAROEN

Full-Stack Developer / Software Developer

• 098-7623202 • gustsri@gmail.com • github.com/gustsri

SUMMARY

Recent IT graduate from KMITL and an ambitious Full-Stack Developer / Software Developer with hands-on experience building web systems end-to-end. Proficient in modern technologies including TypeScript, Python, Next.js, and PostgreSQL. Proven track record of digitizing complex business processes, notably the development of the Budget Preparation Support System. Passionate about leveraging AI-assisted tools to write clean, efficient code and deliver scalable, impactful software solutions.

PROJECTS

Budget Preparation Support System | Full-Stack Developer (Academic Project) Aug 2025 - March 2026

- **Tech Stack:** TypeScript, Tailwind CSS, Odoo (Python), PostgreSQL, Docker
- **Digitized** traditional Excel-based budgeting into a **centralized web application** to connect cross-departmental workflows, analyzing complex system flows through **cross-functional collaboration**.
- **Designed** UX/UI and developed a **Revenue & Expense planning module** with **secure authentication**, alongside building a comprehensive financial summary dashboard.
- **Deployed** the application to a **faculty test server**, conducting real-world validation with administrative users and academic advisors.

Game Vault | Full-Stack Developer Jan 2025 - May 2025

- **Tech Stack:** Next.js, TypeScript, Prisma, PostgreSQL
- **Co-developed** a full-stack game discovery platform **within a two-person team**, implementing a **social account system** that enables users to maintain public profiles and curate personalized lists of favorite games.
- **Integrated** the **RAWG REST API** to dynamically fetch and render extensive game data, alongside developing an **interactive commenting system** to enhance user engagement.

EDUCATION

B.S. Information Technology (Software Development) King Mongkut's Institute of Technology Ladkrabang (KMITL) 2022 - 2026 | GPA: 2.96

SKILLS

- **Frontend:** HTML/CSS, TypeScript, JavaScript, Next.js, Tailwind CSS, React
- **Backend:** Python, PHP, Django, Prisma, Odoo, RESTful APIs (JSON/XML)
- **Database:** PostgreSQL, MySQL, SQL, ERD Design
- **Tools & DevOps:** AWS (EC2, S3), Docker, Git / GitHub, Postman, DBeaver, pgAdmin, AI-Assisted Development (Gemini, Claude, Antigravity IDE)

CERTIFICATIONS

- **Huawei Cloud Certified Developer Associate (HCCDA) - Tech Essentials** | Huawei Cloud (Valid until Sep 2028)
- **Full-Stack Web Developer Module Certificate** | King Mongkut's Institute of Technology Ladkrabang (Issued May 2026)
